

Query Hunter – Turn Unused Queries into SEO Gold

Introduction

Query Hunter is a Chrome extension designed to help SEOs and content marketers identify low-hanging keyword opportunities.

It works directly within Google Search Console, allowing you to:

- Discover underperforming queries.
- Find pages with potential for quick wins.
- Make data-driven decisions without switching tools

How Query Hunter Works

- Install the Chrome extension.
- Connect with Google Search Console.
- Set parameters – Choose keywords with impressions and low CTR.
- View opportunities – Get suggestions to optimize and target those terms.
- Take action – Update content, improve rankings, grow traffic.

Features to Grow Your Traffic

- ✓ Works with Google Search Console.
- ✓ Shows low-hanging queries by position & CTR.
- ✓ Highlights which pages to update.
- ✓ One-click exports for reporting.
- ✓ Helps prioritize updates for maximum SEO impact.
- ✓ Great for content audits and quick wins.
